**III. School Report**

## Head of School Report

The Head of School, Amanda Ainley, provided an update on scheduling efforts for the upcoming academic year, emphasizing the need for creativity due to space constraints and the addition of a new grade level. Staffing continues to progress positively, with the majority of positions already filled following months of interviews. Some hires have started on a per diem basis to help them integrate into the school community early. Follow-up efforts, such as outreach from staff, are being made to maintain engagement with new hires and reduce the risk of attrition.

The school is taking a proactive approach to staffing by over-hiring one intervention teacher, as approved by the network, to provide flexibility in case of any staffing changes. The change in administration this year was highlighted, and it was noted that the leadership team has maintained stability and earned positive feedback from staff. Teacher conversations about next year's offers have been productive, with staff expressing appreciation for the coaching and support provided.

Regarding student promotion and retention, it was reported that teacher-family conferences were currently underway and that the team has been working diligently, case by case, to determine appropriate interventions. The network's approach acknowledges that academic struggle doesn't automatically necessitate retention, though it may be appropriate for some. Decisions are being finalized within two weeks, with only about four students in grades K–3 and one in the upper grades currently under consideration for retention.

## B. Executive Director Report

Michael Coppotelli, Executive Director, provided a brief but comprehensive update, beginning with a reference to ongoing work on the budget and building matters, noting that more concrete details would be shared in the June Finance Committee Meeting. Discussions with the network and landlords are still in progress, and while the school is in a stronger position than previously reported, the situation requires close attention.

The school's State visit is scheduled for June 10, and board members are encouraged to participate. The Honors Celebration Assembly on June 16 will take place prior to the next Board meeting at the SI University Hospital, which donated the event space.

A detailed update on enrollment-year-to-date, the school has received 211 applications, up from 198 at the same time last year, despite a smaller pool of eligible students. Currently, 79 new students are registered, with specific grade-level breakdowns provided. There is a waitlist in third grade, and additional applications are in various stages of completion. The conversion rate from application to registration has improved significantly from 38% last year to 45% this year, outperforming comparable schools in the network. Returning student data shows that of 180 survey responses, 164 families confirmed re-enrollment, with only 2 indicating they will not return.

Projected enrollment for the next academic year is estimated to be approximately 256 students based on current trends and a projected attrition rate of around 16%. It was said that while the school charter allows for 272 students through fourth grade, 256 would be a satisfactory target given current circumstances. The school continues robust recruitment efforts, including outreach through community partnerships, postcards, social media, and a soccer clinic designed to attract families and introduce them to the school environment.

The branding and marketing project is beginning to roll out in the first phase, where communications have been sent out to staff, board, and families. There is an importance of maintaining the school's cultural and language identity while broadening its appeal to the local community. The goal is that this process is transparent and inclusive. The branding decisions will be clearly communicated to staff, parents, and other stakeholders to ensure alignment and engagement.

#### **IV. Network Report**

##### **A. Hebrew Public Leadership Update**

Emily Fernandez, Chief Schools Officer for Hebrew Public, provided an update on the current state and future planning efforts within the network. She began by acknowledging the recent tragedy in Washington, D.C., expressing shared grief and gratitude for the safety protocols in place across their schools. She echoed sentiments from Michael's community message, emphasizing the importance of recognizing such events even amidst ongoing planning and operations.

Shifting to discuss operational updates, Emily Fernandez noted that all Hebrew Public schools are currently engaged in end-of-year wrap-up activities and planning for the upcoming academic year. This includes key decisions around budgeting and staffing. The network team is also preparing for the Leader Institute, a three-day training session in Brooklyn in July for leadership from all four managed schools, along with an operations training component.

She also shared highlights from a recent Hebrew Leader convening in Minneapolis, where she, Michael, Amanda, and Larissa (Dean of Hebrew) joined representatives from both managed and affiliate schools, eight in total. The gathering focused on shared values such as global citizenship, civics, Hebrew language, and connection to Israel.

Lastly, she reminded the board of the upcoming National Board meeting and invited any questions about the network's current status. She briefly referenced prior updates about successful charter renewals and middle school expansions.

## INTRODUCTION

The Safe Schools Against Violence in Education Act (SAVE) became law in New York State on July 24, 2000. The law requires Local Education Agencies (LEAs) to spell out how they will respond to acts of violence and other disasters through prevention, intervention,

emergency response and management.

Schools are at risk of acts of violence and natural and man-made disasters. Emergencies in schools must be addressed in an expeditious and effective manner. The Staten Island Hebrew Public Charter School Safety Plan, which includes a comprehensive Emergency Response Plan, was developed to prevent or minimize the effects of serious violent incidents and emergencies, to facilitate coordination with local resources in the event of such incidents or emergencies, and generally to give direction in situations involving the safety of the school community. Planned and practiced responses to emergency/crisis situations may mean the difference between life and death.

The Staten Island Hebrew Public Charter School supports the SAVE Legislation and has committed to full and active participation in the planning process. The Head of School/and or designee encourages and advocates on-going charter school-wide cooperation and support of Project SAVE.

In the continuing efforts to ensure the safety and security of all students and staff, the New York City Department of Education has also established guidelines to be followed by all community-based organizations. These guidelines are based on both the Department of Health Code *Article 47.25 Health; Emergencies* and the Administration for Children's Services Division of Child Care/Head Start's *Emergency in Elementary Schools*.

Each Elementary School should have a written Safety Plan that provides specific and detailed procedures for responding to a range of incidents including, but not limited to: Fire Emergencies, Evacuation procedures, Hazmat (hazardous materials), Disasters, Shootings, Bomb Threats, Kidnappings, and Hostage Situations

The Board, The Head of School and or designee, the Operations leader, and the School Leadership team are to regularly review the Safety Plan, the evacuation procedures, notification of parents/emergency contacts, medication handling and administration, issuance of first aid kits, fire safety, and emergency communication equipment. In addition, well-defined policies are to be established regarding the supervision of children beyond the program's regular hours of operation or the release of children to designated emergency caregivers when parents are late. These policies and all previously identified areas are to be regularly reviewed and annually communicated in writing to both parents and staff.

## **SECTION I: GENERAL CONSIDERATIONS AND PLANNING GUIDELINES**

### **A. Purpose**

The Staten Island Hebrew Public Charter School-Wide Safety Plan was developed pursuant to Commissioner's Regulation 155.17, and NYC-DOE guidelines. At the direction of the Board of Trustees, the Head of School appointed a Charter School-Wide Safety Team and charged it with development and maintenance of the Charter School-Wide Safety Plan.

7. Maintenance of a "Back-up" system for important paper and computer files, and storage in duplicate at an off-site secured location, including contact information for both children and staff.

## **SECTION II: RISK REDUCTION/PREVENTION AND INTERVENTION**

Risk Reduction, Prevention and Intervention activities are taken prior to an emergency or disaster to eliminate the possibility of the occurrence or reduce the impact of such an emergency should it occur.

### **A. Prevention/Intervention Strategies**

The Charter School-Wide Safety Plan includes strategies for improving communication among students, and between students and staff, and reporting of potentially violent incidents, such as the establishment of youth-run programs, peer mentoring, conflict resolution, creating a forum or designating a mentor for students concerned with bullying or violence, and establishing reporting mechanisms for school violence in accordance with Section 155.17(e) (1)(xvii).

#### **1. Interior Physical Security and Safety Measures**

1. The number of trash containers in use in the school has been minimized. Trash Containers are not situated in areas that are out of view.
2. The school requires that students and school employees wear standardized identification badges with a photograph.
3. The school has a visitor badge system in place.
4. The school tests all fire alarm pull stations twice each year to ensure that they function properly.
5. Fire department fire prevention bureau personnel conduct a fire prevention seminar for the staff at each school and facility once annually.
6. The school has taken steps to properly secure all desktop computers, VCR's and television sets. Security measures include steps to secure computers against theft and unauthorized access.
7. The school has developed a system to ensure that rooms that are not in use are kept locked.

8. The school has a system in place to ensure that serial numbers are on file for school system property.

9. Valuable school property has been clearly marked to identify it as school property.

10. The school has established a system to locate, photograph, remove, and report all graffiti to law enforcement in a timely manner.

11. The school uses an internet filtering system. These filtering systems prevent access to sites containing pornography, hate groups, and sites relating to weapon and bomb making materials. The filters are tested through use to make sure they work while not blocking sites needed by students for schoolwork

12. The school has developed a system to restrict access to the building during the day by keeping specified doors locked when not in use.

13. The school safety design team evaluates all building construction and renovation plans early in the design process and makes recommendations to enhance the level of safety through design features (CPTED and target hardening).

## 2. Program Initiatives

A school wide culture that supports positive learning opportunities for all children and youth is critical. This entails assessing special needs among students who behave inappropriately, referring them to appropriate services and interventions as needed, supporting the development of skills for future employment, and developing working relationships with parents, families and communities.

Young people have a variety of emotional needs, which they bring to school. Some of these needs may be met in school through encounters with peers and school staff, while others require proper assessment and referral to community services. If these needs are handled effectively, students are less likely to engage in negative behavior.

**Other Initiatives** - The Staten Island Hebrew Public Charter School also has initiatives in place for prevention of violence and intervention for children who exhibit or are at risk for violent behaviors.

- **Social Worker Services.** Teachers refer students to the School Social Worker as needed. The social worker meets with targeted students for individual, group and family counseling, working with children in the context of family, school, peer and community systems. He/she ensures effective intervention practices by observing students in the classroom setting, developing a relationship with parents and building relationships with outside community-based organizations for additional services. Interventions provided by the social worker also include conflict resolution and peer mediation.
- **Discipline Code.** Developed by the school staff, the Discipline Code identifies key

players, sets expectations for appropriate school conduct, and defines consequences for parents, students, and staff at the Staten Island Hebrew Public Charter School. The Discipline Code is enforced as needed by teachers and staff within the school.

### 3. Training, Drills and Exercises

**Multi-Hazard Training** - In accordance with Section 1.55.17(e)(1) (xiv), The Staten Island Hebrew Public Charter School will provide multi-hazard school training for instructional and non-instructional staff members and students through a combination of full-scale drills, tabletop exercises and staff development programs. Such training will include fire drills, bus drills, evacuation drills, shelter-in drills and lock down drills.

The Staten Island Hebrew Public Charter School employs a school safety aide, who supervises the sign-in table, provides identifying passes to visitors, directs visitors to their destinations, monitors the visitor traffic in the building, and ensures that visitors sign out and return their passes upon leaving the building.

Working relationships with local police regarding the implementation of school safety and security have been established and will continue to be developed and strengthened.

The School-Wide Safety Plan is distributed to all staff members each year. Planned and practiced responses to emergency/crisis situations occur regularly so that school personnel are prepared the following situations: fire, bomb threat, environmental threat, extraordinary event/crisis, school security (violence, weapons, and intruders), drugs and alcohol, child abuse, medical emergencies, and death in the community. Such emergency drills occur as both planned and unplanned practices at various times of the day and are recorded each year.

All drills are timed by the Head of School or designee to assess improvement over time. The drills are reviewed by the School Safety Team to assess timing, coordination, and performance of key personnel. The Head of School or designee is responsible for monitoring duration and efficacy of each drill.

**Conduct and Review of Drills** - In accordance Section 155.17(e)(1)(xv), the Staten Island Hebrew Public Charter School shall hold and evaluate fire drills (8), emergency evacuation drills (2), intruder drills (4), and other drills as deemed necessary to ensure that all students, faculty members, and other staff are familiar with each drill so that it can be activated and accomplished quickly and efficiently. These drills will be held at regular as well as inopportune times, and will utilize a variety of blocked exits, as appropriate, to take care of almost any situation. Each member of the faculty shall take his/her attendance register or class record when a drill is conducted. Immediately upon arrival at a prescribed point, the faculty member shall check the students to see that all students are present. A report of absentees shall be made immediately to the Head of School or designee. Drills will involve and be coordinated by local emergency responders at the NYC 122nd Police Precinct, 2211 Hylan Blvd, Staten Island, NY (718-667-2211).

The evaluation of all drills will be conducted after each and every drill. Evaluation records will be kept for each drill, including the times for the evacuation of the facility, in order to

Staten Island  
**HEBREW PUBLIC**  
CHARTER SCHOOL

ascertain whether or not the drill is running in a timely manner and according to plan. Administrative staff and other observers will be placed to evaluate the student and staff participation in order to make recommendations for the improvement of these drills.

Participating in emergency preparedness drills empowers young children to feel more in control of situations that are otherwise frightening and disorienting. When appropriate, “Stop, drop and roll” exercises should be conducted with the children, along with lessons regarding fire safety at home and in school. Encourage children to talk about their concerns. Reassure children that the program staff is doing everything possible to keep them safe. Fire and evacuation drills must be conducted 8 times per year with staff, volunteers and children.

During a drill everyone must leave the building immediately. The following steps should be taken:

1. At the sound of the signal, the staff directs the children to stand.
2. Classroom Teacher leads the children to the exit.
3. The last person on the line closes the classroom doors to prevent the spread of fire.
4. Staff and children walk a sufficient distance so that they are clear of the building.
5. When an “all clear” signal is sounded everyone reenters the building.

**Sheltering In** - There will be times when the appropriate response to a disaster may require that emergency responders direct children and staff to remain within the building. This type of response is often referred to as “sheltering-in.” **The “sheltering-in” location must be**

1. A hallway and away from windows and glass;
2. An area that is isolated and where ventilation can be turned off, if needed;
3. An area that is lower than the first floor and away from the main entrance of your building; and,
4. An area that has access to emergency resources such as water, cups, change of clothing, a battery operated radio, and flashlights.

The determination that staff and students should remain inside during a disaster will be made by local law enforcement and public safety officials. Once that decision has been made, staff will be given particular directions as to where staff and children should be moved as well as the steps that need to be taken to ensure that the relocated environment remains free from the dangers outside of your building.

While by law school personnel are required to conduct fire drill mandates, they are also urged to conduct shelter drills. **At the sound of the shelter drill signal, the procedures should be as follows:**

1. Close all windows, draw all shades, exit classroom with the children, close all of the classroom doors and proceed immediately to the shelter.
2. Maintain calm and quiet.
3. Return children and staff to classrooms at the sound of the signal

#### **4. Implementation of School Security**

##### **Building Security Procedures**

**1. Visitor Management** - All visitors to The Staten Island Hebrew Public Charter School will be required to sign in at the greeter's table at the main entrance of each school building. Anyone who is not a regular staff member or a student of the school will be considered a visitor. This includes parents/relatives, contractors, vendors, delivery people, and others having business with school officials.

In accordance with Section 155.17(e)(1)(xviii), The Staten Island Hebrew Public Charter School employs a school safety aide who supervises the sign-in table, provides identifying passes to visitors, directs visitors to their destinations, monitors the visitor traffic in the building, and ensures that visitors sign out and return their passes upon leaving the building.

1. Each visitor shows identification and a visitor's badge is issued.
2. Each visitor's time-in and time-out of the building is recorded.

Upon signing in, the greeter will provide the visitor with a badge identifying the individual as a visitor. The visitor will wear the badge conspicuously during the visit. Upon leaving, the visitor will sign out at the greeter's table and return the visitor's badge to the greeter. The names of visitors who do not sign out and return the visitor's badge provided to them at check-in will be reported to the Head of School or designee as soon as possible.

Visitors, even though they have signed in and are wearing a visitor's badge, are not allowed to wander through the facilities.

A staff member who observes a visitor who appears lost or who is otherwise walking through the building with no apparent purpose will address the visitor by asking, "Can I help you?" The staff member will then provide assistance in the form of directions or direct the visitor to the main office. If a staff member observes suspicious, threatening and/or otherwise inappropriate behavior, such behavior should be reported immediately to the main office for a response from the Head of School or designee. Student visitors from other schools, unless they have a specific reason and prior approval of the Head of

Staten Island

School or designee, are not permitted to enter school buildings. Anyone who violates any provisions of The Hebrew Language Academy School Code of Conduct is subject to appropriate penalties, up to and including reprimand, ejection, arrest and/or criminal prosecution.

**2. Duties of School Security Personnel** - The school staff who serve in this capacity receive training from the Head of School or designee as to their duties at the beginning of each school year. The greeter's table is in the lobby reached through the main entrance door. The hiring and screening process for these employees is the same as for any other staff member, including teacher aides who do not serve in this capacity. The hiring and screening process, of course, does involve the mandatory fingerprint and criminal background check required of all employees.

Everyone in the facility, including other employees, instructors not in the regular classrooms, and visitors, must obey the instructions in the room or area they occupy when the alarm or notification is given.

All exterior doors not routinely used for student or staff entrance will be secured so as to limit building access to the main entrance of each facility.

Procedures for maintaining the security of the facility, as well as procedures for radio use, will be regularly tested by the Head of School or designee.

## **5. Vital Educational Agency Information**

**Maintenance of Vital Information** - In accordance with Section 155.17(e)(1)(xx), The Staten Island Hebrew Public Charter School collects and maintains vital educational information, including student enrollment, the number of staff, and teaching stations. The Head of School or designee assesses transportation needs. The Head of School or designee maintains and updates listings of home and work telephone numbers for key personnel throughout the school.

The Staten Island Hebrew Public Charter School is the sole educational agency required to follow this School-Wide Safety Plan.

School Violence Prevention training at the beginning of this school year. Updated training in this area will be provided annually hereafter. In addition, teacher aides who supervise students in non-academic areas, such as on playgrounds and in cafeterias are provided with conflict intervention training. Conflict intervention training for teacher aides will be updated annually. **Child Safety** provides all students with training in detecting and managing unwanted behaviors. The topic is introduced to parents at the first parents meeting in the fall, then through notices at Fire Prevention Week and the week prior to the spring break.

Before the end of the first week of each academic year, teachers will familiarize themselves with all available information and records about the regular education and/or special education program placement of every student in their class. Instructional and non-instructional staff, who are concerned about the behavior of a student will communicate with the Head of School or designee if the situation so warrants. The Head of School or designee will then communicate appropriate information to other staff members on a need-to-know basis. The staff member will proceed to work with that student on the basis of these consultations and information.

## **C. Hazard Identification**

**Hazard Identification** - In accordance with Section 155.17(e)(1)(i), The Staten Island Hebrew Public Charter School building has been evaluated for the location of potential hazards, both on and off school grounds. This hazard identification shall be updated at least once a year. The locations currently consider as hazardous are the interactions of

- Within the building – Custodial closets located in closets on the first floor.
- HVAC Units - Located on the roof

No Sites of Potential Emergency for the Areas surrounding the Staten Island Hebrew Public Charter School building have been identified. The Emergency Response Plan, located in the School Office along includes the identification of hazardous roadways and intersections in proximity to the school building.

There are no storage facilities for hazardous chemicals adjacent to School facilities that have been identified by the New York State Department of Environmental Conservation.

Staff training in the Charter School-Wide Safety Plan will emphasize this aspect of the communications protocol. Such inquiries will be addressed by the Head of School or designee, or one of the School's available administrators or teachers.

In the event of a critical incident, the Head of School or designee will complete an incident report form in anticipation of contact by members of the media. The incident report will outline the date, time, location, and type of incident, and what agencies have been contacted. As time permits, a press release based upon the information contained within the incident report form will be developed and disseminated via fax, telephone, e-mail or in person to members of the media. A list of area media contacts will be developed by the Head of School or designee for this purpose.

Depending upon the nature of the critical incident, the charter school's attorneys will be contacted for on-site consultation, as appropriate. As already outlined in this plan, emergency service providers and local officials will already have been contacted as required.

When representatives of the media arrive at the site of the critical incident, the Head of School or designee will designate a location and format for meeting with them to provide an incident report and answer appropriate questions. The location will be determined by the Head of School or designee and will be dictated by the nature and location of the critical incident. Depending upon the nature of the incident, the media briefing area could be in the Head of School's office, in the school building, outside one the school building, at a designated off-site command post, or adjacent to the off-campus incident site.

If it becomes necessary to close school before the regular closing time, such information will be announced and communicated to parents by administrators using the telephone.

Parents, guardians and persons in parental relation complete emergency contact cards at the beginning of each year. One of the names listed on the emergency contact sheet will be notified of the early dismissal by the school operations team via telephone. This could include informing a parent or other emergency contact members and/or riding a bus to a different-than-normal destination. Management of the emergency early dismissal process is the responsibility of the Head of School or designee. The Head of School or designee will remain at the school until all students are dismissed.

Signed instructions for emergencies from parents, and /or legal guardians should be available, including name and date of birth of the child; name, address and telephone number where one or both parents may be reached at home and at work; name, address, and telephone number of another person who has agreed to care for the child if the parent or guardian cannot be reached; name, address, and telephone number of the family physician (or Christian Science Practitioner), a list of medical problems, allergies, and daily medication needs, and any special condition which should require special handling. This information is requested of parents on the student emergency card.
2. The Head of School or designee will ensure that all school personnel and students are informed of the location of the school nurse. The telephone numbers of specific emergency services and individuals will be posted conspicuously near each telephone. These may include school physician, fire department, police, hospital, ambulance, poison control center, etc.
3. A list will be maintained by the Head of School or designee of all students and staff having special medical problems such as hypersensitivity to allergens, diabetes, epilepsy, allergy to bee stings, etc.

**School Resources for Use in an Emergency** – In accordance with Section 155.17(e)(1)(ix), The Staten Island Hebrew Public Charter School can use other resources. Those resources include:

- A school in the area, with its telephone number and street address
- Communication Resources at the school – classroom intercoms, bullhorns, telephones and faxes.

**Procedures to Coordinate Resource Use** - In accordance with Section 155.17(e)(1)(x) the Staten Island Hebrew Public Charter School has prepared a listing of all resources available to the school located in the Emergency Response Plan. This includes the emergency equipment available such as batteries, food supplies, water, fire extinguishers, etc. Emergencies requiring transportation, the school will contact The NYC DOE Office of Pupil Transportation.

In the event of an emergency, the Head of School has been authorized to afford maximum protection that is reasonably attainable for all students, staff, and facilities. This includes the development and implementation of an emergency plan for the protection of all students, faculty and all buildings and grounds and the physical assets of the school.

The NYC DOE Office of Pupil Transportation has hundreds of buses and is a major provider of student and adult transportation in New York City.

The school building has a multi-purpose room that could be used for sheltering purposes. Food would have to be brought in from other sources for a prolonged period of time.

There is telephone communication throughout the building. The school office has hand-held radio communication. There are no generators located at the school. Therefore, electricity would be needed to run all building systems.

Notification to the Head of School will allow all resources, facilities and vehicles to be allocated and used in the event of an emergency.

During certain conditions, the nature of the emergency may demand that classes be dismissed or canceled. The nature of some events may include that students and staff be evacuated from the building. They will be transported and housed temporarily in the *(School or other designated area which will receive students in an emergency)*

The following is the procedure to be implemented:

1. The Head of School or designee will make the decision to evacuate.
2. The Head of School or designee will notify the local police and fire departments, if and as appropriate.

3. The Head of School or designee will notify the appropriate official(s) at the off-campus alternative site(s).
4. Teachers will assemble students at the designated assembly site outside the evacuated school building.
5. Teachers/staff will be dispatched to the alternative site(s) to prepare receiving areas.
6. Teachers will walk students to the designated alternative site, take attendance, and report attendance to the Head of School and or designee.
7. The Head of School or designee will notify the media and post the information on the Internet to inform the parents of the evacuation and the site location for student pickup.

- **Early Dismissal Plan**

**8. Response Plans for School Cancellation, Dismissal, Evacuation and Sheltering**  
– In accordance with Section 155.17 (e)(1)(ii), The Staten Island Hebrew Public Charter School has established responses for emergencies, including the cancellation of classes, early dismissal, evacuation, and sheltering.

- 1. Cancellation of Classes / Notification of “No School”**

If severe blizzard, heavy snow storm, ice conditions or flooding occur during the night which make driving hazardous, and such conditions are known by 6 AM, a “No School” announcement will be made. Responsibility for this decision and notification shall be the Head of School and/or designee. The Head of School or designee will call to notify them of the cancellation. The Head of School or designee, in turn, will send out the automated phone/email message to all parents and staff.

- 2. Dismissal During School Day**

If, during the school day, weather or another situation threatens and/or develops that would jeopardize the health and safety of the school children, the school may be closed earlier than the usual dismissal time. In that event, the parents and the bus company will be notified. Either parents or buses will transport the children to their after-school destinations in the usual afternoon dismissal order. Parents will then expect their children to arrive home before the regular arrival time.

- **Evacuation Procedures / Sheltering Sites (Internal and External)**

In the case of a tornado or national emergency, or other type of emergency requiring persons to stay in the building, the Head of School or designee shall initiate the necessary actions upon notification that his school is threatened. Students, faculty, and other employees at the school will go immediately to their designated stations previously assigned. During certain conditions, the nature of the emergency may demand that

Staten Island  
**HEBREW PUBLIC**  
CHARTER SCHOOL

students and staff be evacuated from the facility. They will then be moved to and housed in another alternate location, such as the *(School or other designated area which will receive students in an emergency)*

In certain circumstances, evacuation may mean only going outside, away from the building and waiting for danger to pass. The following is the procedure that will be followed:

1. The Head of School or designee will make the decision to “Evacuate”.
2. The Head of School or designee will notify the local police and fire departments and the Emergency Response Team, if and as appropriate.
3. If students are to be transported beyond walking distance, the Head of School or designee will notify The NYC DOE Office of Pupil Transportation for buses to transport children to the new destination.
4. The Head of School or designee will then evacuate the building.
5. Teachers will walk all students to the designated alternative site/s.
6. Each member of the faculty shall take his/her attendance register.
7. Students will line up in an orderly fashion and attendance will be taken.
8. School personnel will be dispatched to the alternate site to prepare receiving areas.

As specified in the Evacuation Procedures, staff will remove the Emergency Binder and attendance rosters.

The Head of School or designee will notify the area media to inform the parents of the evacuation, of the site location for student transportation or pick up, and of the timetable for dismissal. Upon arrival at the alternate site, students will be directed to a specific location. Each teacher will take attendance and forward the record to the Head of School or designee. If conditions permit, the children will be returned to the school for a normal dismissal.

- **Dismissal from the Alternate Site**

If parents arrive to pick up their children, they will give the name and grade of their child to the staff member assigned to monitor the entrance of the alternate site location and then be directed to the correct area for pick up. Buses will arrive at the alternate site location to transport children to their after-school destinations on a schedule to be determined by the situation requiring the evacuation. If the crisis persists past 2 P.M., children will have to wait for the normal dismissal schedule in order to be transported from the alternate site location.

At the alternate site location the Head of School or designee will be inspected to ensure all children have evacuated. Upon final building inspection, school personnel will be released

by the Head of School or his designee on a need basis.

#### **V. - Section IV: Recovery**

Responses for different types of crises should be planned in advance and reviewed, updated, and practiced periodically. The chaos and panic created by certain situations cannot be effectively handled without a pre-established specific plan of action.

The extent of, and need for, disaster or emergency recovery depends in large part upon the nature of the incident. The Staten Island Hebrew Public Charter School administration will provide the necessary resources to ensure as smooth a transition back to normal operations as possible following an emergency or violent incident.

#### **A. District Support for Buildings**

**Support for the building** – The Staten Island Hebrew Public Charter School will support the Emergency Response Team in emergencies or disasters by providing financial and logistical assistance. The agency will also aid the team by interfacing with relevant regulatory agencies and the media.

#### **B. Disaster Mental Health Services**

**Disaster Mental Health Services** - Following a serious act of violence or other disaster in the school, employees, counselors, students, police and other emergency respondents, witnesses, and the family of these individuals often suffer from stress-related ailments such as insomnia, depression, anger, headaches and ulcers. These conditions translate into higher rates of absenteeism and turnover, as well as reduced school and job performance. Much of this suffering and loss can be reduced if the affected individuals receive debriefings from experienced counselors 24 to 72 hours after the traumatic incident.

The Staten Island Hebrew Public Charter School, under the direction of the Head of School will facilitate the coordination of disaster mental health resources by interfacing with the State Emergency Management Office, the NYS Office of Mental Health, and the American Red Cross.

At all times the School must maintain close cooperation with investigating authorities to facilitate completing investigations and minimizing complications.

## School Safety Plans

The Safe Schools Against Violence in Education Act (SAVE) became law in New York State on July 24, 2000. The law requires Local Education Agencies to spell out how they will respond to acts of violence and other disasters through prevention, intervention, emergency response and management.

Emergencies in schools must be addressed in an expeditious and effective manner. Our schools' District Safety Plan, which includes a comprehensive Building Level Emergency Response Plan, was developed to prevent or minimize the effects of serious violent incidents and emergencies, to facilitate coordination with local resources in the event of such incidents or emergencies, and generally to give direction in situations involving the safety of the school community. Each school's building response plan is customized and localized to make sense for each of our school sites.

As per Section 155.17 of the Commissioner of Education's Regulations, charter schools **do** have to draft, publicly notice and adopt a safety plan.

Specifically, the schools have to:

1. Create both Safety and Building Level Emergency Response Plans; and
2. Allow for at least 30 days of public comment before the Board adopts the Safety Plan which needs to be by October 1 ; and
3. Within 30 days of the Board's adoption, the Safety Plan must be filed with the Commissioner of Education and;
4. Also within 30 days of the Board's adoption but no later than October 1, the Building Level Emergency Response Plan must be filed with the local LEA and state police.
